AMERICAN STOCKS FIRM

IN LONDON MARKET. INDUSTRIALS RATHER NEG-LECTED.

Possibility of a New War Loan in London-Queensland Loan a Failure.

REPUBLIC SPECIAL. New York, July 9.-There was scarcely any striking change in the London market, but American stocks upon the whole were fairly firm. The general market was steady and consols practically unchanged on the day. Money was in rather more cemand in London at 2% per cent, but there were no changes in other European centers. Ex-change remained low in Paris and Berlin. The Chinese news was a little better, al-

though rather indefinite and mostly ru-

made were based for the most part on dividend talk, and any strength was due to his cause. The buying in Illinois Central Packed a good deal more like manipulation than inside operations, and the best information in the street did not confirm the rumore of an increased dividend. There was speculation of the probable dividend upon Louisville and Nashville, some traders expecting 2 per cent flat, while the more general idea took the form of 14 per cent and 15 per cent extra. The Jersey Central declaration of 5 per cent caused very little stir. Some anxiety was beginning to be felt about the corn crop, and this probably was the basis of the sales in the granger stocks made for Chicago. London did very little, probably selling some 8,600 shares on balance. Industrials were rather neglected,

rope indicate that the bubonic piague has broken out in Oporto. The new Queensland loan floated in London for \$7,00,000 has proved a failure and the underwriters are saddled with the stock at \$3 per cent.

"The cholera mortality continues high in Bombay. The May mortality there was appalling. The number of persons receiving relief is 6,013,001."

The Governor of Bombay telegraphs to the Foreign Office as follows:

"There were 18,320 deaths from cholera and 6,502 fatalities in the famine district during the last week in June. The total deaths among the numbers on the relief works in the British district were 5,324. The number at the relief works is increasing rapidly in consequence of the drought. The number on gratuitous relief is increasing throughout the effected district."
